Business Concept Overview

- ScarletMart was founded at Rutgers University to meet the everyday needs of college students while being open 24/7
- Designed specifically to serve the needs of college students
- Staffed entirely by Rutgers students
- Offers food, snacks, drinks, and everyday essentials
- Provides a fast and convenient shopping option for busy students
- Accepts both meal swipes and traditional payment methods for convenience
- Creates a flexible and accessible shopping experience

Customer Value Proposition

- Many college campuses lack convenient stores that operate 24/7 and accept meal swipes
- A central campus location makes the store easy to access for students from different areas
- Offering a wide variety of food, snacks, and everyday items would ensure that students can quickly find what they need in one convenient location.
- Compared to other on-campus options, it would be more affordable, and the ability to use meal swipes would provide added convenience for students with meal plans.
